Intersex individuals are born with sex characteristics that do not fit the typical definition of male or female. This can become apparent at birth or later in life.

Reasons for Discrimination for being intersex can be based on gender expression, stature or other bodily appearances of an individual not conforming with the female or male norm.

Intersexphobia (or Interphobia) is when discrimination is based on intersex traits of a person. In sports this can lead to exclusion, ridicule & discrimination of intersex athletes.
